1. Introduction

North Falls Offshore Farm Limited has contracted Fugro GB Marine Limited (Fugro) to carry out a geophysical and environmental site investigation in the North Sea for the proposed North Falls Offshore Wind Farm (NFOW) site.

The North Falls Offshore Wind Farm site is located to the east of Felixstowe and bordering the Greater Gabbard and Galloper existing wind farms.

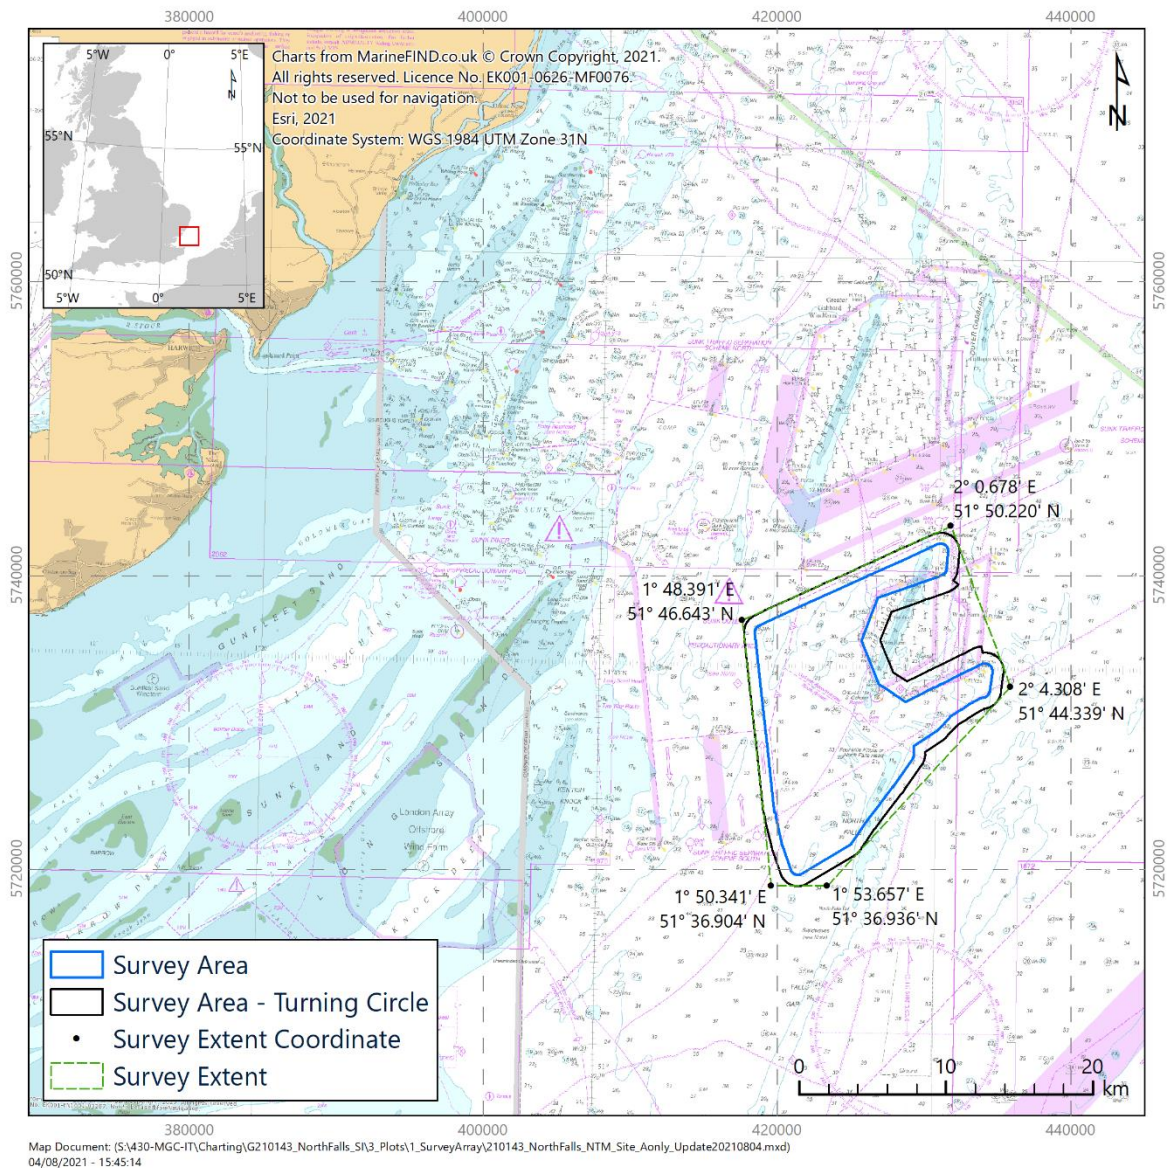

Figure 1: Remaining Project Locations

2. Area of Operations

The coordinates of the survey area, including buffers, are also provided below.

Table 1: Survey Area Buffer Zone Coordinates

Label	Lat_DDM	Long_DDM	Easting	Northing
Block A				
1	51° 50.220' N	2° 00.678' E	431880.3	5743372.1
2	51° 44.339' N	2° 04.308' E	435909.7	5732415.4
3	51° 36.936' N	1° 53.657' E	423445.0	5718864.9
4	51° 36.904' N	1° 50.341' E	419616.8	5718864.9
5	51° 46.643' N	1° 48.391' E	417662.3	5736952.4

3. Fugro Mercator - Offshore Geophysical Investigation

The geophysical operations at the North Falls site are expected to be carried out from the Fugro Mercator from 10th May 2021 until approximately the 9th August. Fugro Mercator will be conducting operations in Block A.

Please note that the exact finish date will be dependent on the prevailing weather conditions and work progress.

Important Information

As the Fugro Mercator will be towing survey equipment the vessel will require large turning circles and will be restricted in her ability to manoeuvre. All vessels operating within this area are requested to keep their distance, maintaining at least the 500m safety zone around the survey vessel, and pass at minimum speed to reduce vessel wash.

A continuous listening watch will be conducted on VHF Channel 16.

Survey operations will be conducted on a 24-hour basis.
